to read it has nothing to do with the merits or demerits of either resolution but rather as to why I think Senator Simon's ought to have an opportunity to be heard before LR 152 and I think that is on the point. I have to argue to show why I say the order should be reversed and I'm going to show why with these three sentences or so from a transcription of when LR 152 first came up, and it does not deal with the contents of the resolution. "Senator Frank Lewis: Mr. President, I respectfully ask for the membership to set a time special for this particular bill. It is an attempt to also save some time by setting a time limit and also we have two members who have agreed to make it their priority bill. So, instead of having an hour on the priority bill from those two, we would hope that we would have 30 minutes on this one." Now, this indicates that when they first brought it up they were asking for thirty minutes. They had that thirty minutes, Senator Lewis told us that the group, that the three of them had agreed that the body could save time by letting them have those thirty minutes. The body gave them the thirty minutes, now they are asking for an additional hour. If they don't succeed in that hour they are going to ask for additional time. So, we know that promises don't mean too much during this point in the session. Senator Simon offers a proposition which I think will give people the chance to go on record in the way that they feel they need to go on record. So, I'm in favor of what Senator Simon is attempting to do. I think that it is equitable and I think that it is just. I support what he is trying to do, Senator Patrick Venditte.

PRESIDENT: Senator Venditte.

SENATOR VENDITTE: Mr. President, members of the Legislature. The only concern that I have at this point in time and Senator Chambers has refused to elaborate on what he had said earlier and Senator Simon the same. He claims, or they claim that there had been unnecessary, undue and whatever terminology you want to use, influences used on this floor of the Legislature. Now, I would like to relinquish some of my time for Senator Simon first of all to identify some of these kinds of influences, Senator Simon, that you claim have been rampant on this floor of the Legislature, and apparently beneath the dignity of this body or perhaps some Senators. So, Senator would you tell this body what kinds of influences have been used.

SENATOR SIMON: I'll be more than happy to, Senator Venditte. I don't know if it is beneath your dignity, it is beneath mine. When you got up on the floor and say to this body categorically that a vote for 152 is a vote against abortion and a vote against 152 is a vote for abortion, then you are lying to this body.

SENATOR VENDITTE: That is one, Senator, and you had used the plural sense...

SENATOR SIMON: That is plenty right there.

SENATOR VENDITTE: No, Senator. You mentioned the word "undue pressures", I take that to mean that there had been many. That has been one, that is obviously....

SENATOR SIMON: You mean how many other instances of lying that I can bring up, besides yours?
